## OBJECTIVE

I'm looking for part-time work in the role of Software Engineer. in the IT and telecommunications industry.

---

## PERSONAL STATEMENT

I am a dedicated software engineer passionate about crafting innovative, user-friendly, and secure applications. With a strong foundation in problem-solving, system security, and data-driven development, I aim to bridge the gap between user needs and technology solutions. Currently, I aim to secure a role as a software engineer focusing on building intuitive applications with hopes to become a lead software architect or a specialist in secure system design and contribute to the development of innovative, large-scale platforms in the AI or cybersecurity industry.

My role is to contribute meaningfully to projects that impact lives positively while continuously growing my expertise in advanced technologies.

---
